It features 100KW power conversion system, 232kwh LifePO4 battery banks, energy storage system, liquid cooling systems, fire control system, and an intelligent human-machine interface ...

The MG100K is a high-performance all-in-one energy storage system with 100kW output and 207kWh capacity, ideal for microgrids, industrial backup, and solar integration. Featuring LiFePO4 batteries, ...

All-in-One integrated system design inside the Cabinet to fulfill Commercial & Industrial scenarios.

This energy storage cabinet has both 100KW high-power output and instantaneous charging capability, which can complete charging in a short time and reduce waiting time.

The 215kWh C & I energy storage battery system applied in industrial and commercial scenarios adopts a modular battery box design, with battery cooling through air-cooling.

The Energy Storage Air-Cooled Temperature Control Unit is used to regulate the temperature of energy storage systems in applications such as renewable energy storage, data centers, remote ...

For a free quote on our wide variety of designs, just provide your email or phone number in the contact form--we'll get it to you promptly.

With the microgrid, the synchronization capability between the generator and the energy storage Power Conversion System (PCS) ensures seamless and uninterrupted operation. The PCS can either ...
