---

Our compact and modular power distribution blocks distribute or group single phase or three phase electrical circuits from a single input source to several devices in the branch circuit.

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC ...

Our BESS systems are all-weather suited, with three different cabinet variations to suit any weather environment. With isolated output and online UPS for grid-connected applications, you have access ...

o Compatible with different battery brands. o 150~750Vdc o Grid-tied and Off-grid o 480Vac 3P4W & 240Vac 2P o Global grid certified & listed PCS o Compliance with global safety standards.

The following steps are proposed for an assessment. For PV-only systems only step 1 applies; for BESS-only systems steps 2 and 3 apply; and for PV+BESS systems all three steps would apply.

Thanks to our engineering and battery expertise we can customize our system to match specific application needs from voltage regulation to full off-grid power generation.

90KW/266KWH All-in-one Fully integrated Outdoor Cabinet BESS produced by catl Individual pricing for large scale projects and wholesale demands is available. Mobile/WhatsApp/Wechat: +86 156 0637 ...

Implementation of a BESS system in an of-grid site will require a energy needs assessment, battery system design, integration and control systems, testing and commissioning.
