We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

This observation inspired us to make the first steps towards an off-grid solar-driven mini-plant by integrating an LSC-PM and a solar panel for energy production.

MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada & USA.

An Off Grid solar Container unit can be used in a host of applications including agriculture, mining, tourism, remote islands, widespread lighting, telecoms and rural medical centres.

Among the innovative solutions paving the way forward, solar energy containers stand out as a beacon of off-grid power excellence. In this comprehensive guide, we delve into the ...

Modular, solar-powered shipping-container systems for remote living and businesses. Complete off-grid power solutions built by licensed electricians at Danger Electric.

The combined use of solar and wind energy can significantly reduce storage requirements, and the extent of the reduction depends on local weather conditions. The methodology adopted in ...

All-encompassing, fast, and resilient solution for disaster preparedness. A ready-to-install 2-3 kVA power module with 4-6 solar panels and lithium battery storage. Our turnkey water module is a water ...
