What is a stainless steel IP54 enclosure?

Stainless Steel IP54 Enclosure KDM manufactured IP54 enclosure to provide top-quality, easily customized cabinets that will perform well in your application. At KDM, our range of IP54 enclosures features a variety of different materials such as aluminum, carbon steel, and stainless steel.

Is IP54 suitable for outdoor applications?

IP54, just like our other IP enclosures, is suitable for outdoor applications because it is protected against low-pressure water sprays from any direction. However, keep in mind that these enclosures are not entirely dust-tight and waterproof, so very dusty or underwater environments may be too harsh for them.

Can a custom enclosure meet the IP54 standard?

If you are looking for a custom enclosure that meets the IP54 standard, our professional designing and development team can help you a lot. Metal finishes can be customized including aluminum alloys, stainless steel, galvanized steel, and carbon steel, to meet your application requirements.

How can I customize my IP54 electrical enclosure?

You can custom with cutouts, insulation, hinges, latches, or locks. At KDM, we are dedicated to meeting the cost-savings enclosure you need without compromising quality and the high performance you expect from your IP54 electrical enclosure.
