The Philippine Department of Energy (DOE) has cleared 21 battery energy storage system (BESS) projects for system impact studies (SIS) with the National Grid Corporation of the ...

The Masinloc BESS is the first battery energy storage facility in the Philippines and one of the first in Southeast Asia. Our acquisition of Masinloc BESS is a landmark milestone that drives the Philippine ...

Blue Sigma Philippines Inc. is a premiere innovator and manufacturer of advanced Battery Energy Storage Systems (BESS). We are passionate about making a positive impact on the energy ...

This facility, spanning Nueva Ecija and Bulacan, will be the world's largest single-site solar and BESS project. The first phase of the project will deliver 2,500 MW of capacity, with the ...

It is our goal to integrate battery energy storage systems in our renewable energy projects such as solar and wind. By storing excess energy generated during peak production times, these systems help ...

Aboitiz Power commits P1.2B to a pioneering hybrid BESS project in the Philippines. This model, integrating battery storage into thermal plants, is a blueprint for climate-resilient energy and grid ...

Discover how battery energy storage systems (BESS) are reshaping energy reliability and renewable integration across the Philippines.

The passage of Republic Act No. 11234, entitled "Energy Virtual One-Stop Shop (EVOSS) Act" on 08 March 2019 paved the way for streamlining and expediting the permitting ...
