Extruded aluminium profiles make PV mounting faster, easier, and more reliable. We design and supply low-carbon aluminium rails, frames, and click-and-plug connections that cut ...

ALUMCORE"s aluminum solar mounting systems are engineered to provide durable, corrosion-resistant support for both rooftop and ground-mounted photovoltaic installations.

As a leading aluminum extrusion manufacturer in China, we excel in providing high-quality aluminum profiles specifically tailored for the solar panel mounting industry and other diverse applications.

Made from high-quality aluminum, our installation bracket profiles are built to withstand harsh weather conditions, ensuring the longevity of your solar panel system.

Our photovoltaic bracket systems secure panels to rooftops, ground surfaces, carports, and specialized structures. Crafted from anti-corrosion materials (aluminum alloy, galvanized steel, stainless steel), ...

Custom aluminum PV mounting solutions are ideal for businesses looking to optimize solar power projects while ensuring easy installation and robust performance over time.

R-Profile PV mounting profiles are the ideal choice for a variety of photovoltaic installations, ensuring the safety, durability, and optimal performance of your solar energy systems.

Aluminum profiles designed for solar mounting systems and PV structures. Factory production with stable quality, anodized finish, and OEM support for solar projects.
