This guide serves as a reference for inspecting, transporting, unpacking, handling and storing LONGi PV solar modules to ensure safe practices for you and the modules.

As we approach Q4 2025, the industry's moving toward multispectral imaging - capturing data beyond visible light to assess internal component integrity during unloading.

Please read the following safety instructions carefully before unloading and unpacking your solar modules. It is crucial to follow the outlined measures and guidelines for the safe unloading and ...

Unpack the modules as per the recommended unpacking procedures. The whole process of unpacking, transport and storing should be handled with care. (3)Before installation, ...

To ensure the safety of unloading of PV modules, please read this manual carefully. In the process of unloading, the forklift should be selected reasonably according to the size and weight of the goods.

This short video explains best practices for loading, banding, and unloading solar modules with your PVpallet Series X. Note that banding is always necessary to properly secure your PV ...

This video offers an exclusive insights into the process of unloading photovoltaic piers, showcasing the initial steps in setting up solar energy systems.

This manual provides comprehensive guidelines for the safe and efficient Unloading and storage of solar photovoltaic (PV) modules manufactured and supplied by JAKSON Engineers Limited.
