-----

In 2023, the average BESS cost per 1MW hovered around \$450,000-\$680,000. But here's the kicker: prices vary wildly based on battery chemistry, grid connection fees, and regional labor rates.

On average, installation costs can account for 10-20% of the total expense. Unlike traditional generators, BESS generally requires less maintenance, but it's not maintenance-free. ...

As of 2024, the average price for a utility-scale BESS is approximately \$148/kWh <sup>1</sup>. For a 1 GWh system, this translates to \$148 million. It's important to note that this cost includes not just the ...
