Solar installation costs vary significantly by location due to differences in labor rates, local incentives, permitting fees and electricity prices. The national average is around \$20,000. On...

Solar panel costs range from \$16,600 to \$20,500 for the average 6.5 kW system, but prices can vary from as little as \$7,700 for smaller solar systems to upward of \$34,700 for larger systems.

Find out the 2026 costs of solar panels, learn about incentives to reduce your expense, and discover how Project Solar can help you save with affordable quotes.

Solar panel costs refer to the price or expense associated with the acquisition and installation of solar photovoltaic (PV) systems and encompass a wide range of financial considerations.

Our team of solar experts analyzed data from the National Renewable Energy Laboratory, the U.S. Energy Information Administration, and the Bureau of Labor Statistics to get an accurate estimate of ...

Solar CompaniesSize, Weight and Number of PanelsFederal Solar Tax CreditType of PanelsSolar Panel ManufacturerEfficiencyRoof PitchType of MountThe cost of solar panels is dependent on the solar panel company you choose. From the solar equipment system itself to installation costs and add-ons, the price will vary from company to company, and the first step is to consider your options for the best solar companies.
