---

Designed for commercial, industrial, and microgrid applications, it integrates a 30kW PCS with a 60kWh LiFePO4 battery bank to provide safe, efficient, and reliable power storage.

Equipped with a high-quality Lithium Iron Phosphate (LFP) battery, the system ensures superior thermal stability, multiple protection mechanisms, and excellent safety performance. It uses a modular ...

These systems are pivotal for applications ranging from residential energy storage, to providing backup power, to integrating with renewable energy sources, and even in supporting grid services.

Built with the latest in lithium battery manufacturing technology, the ESS 30KW ...

Tested under multiple operating conditions, this storage system guarantees exceptional durability and consistent performance. Its user-friendly design supports convenient operation and maintenance, ...

A BESS cabinet (Battery Energy Storage System cabinet) is no longer just a "battery box." In modern commercial and industrial (C& I) projects, it is a full energy asset --designed to reduce electricity ...

AlphaESS is able to provide outdoor battery cabinet solutions that are stable and flexible for the requirements of all our customer"s battery and energy storage demands.

The energy storage cabinet has a long lifespan of 10 years, protective class reaches IP54, with a forced air cooling method, over 6000 cycle times at 80% DOD, 25?.
