---

Without operator intervention, they automatically select the appropriate input power ranges to accommodate global operation. The GUPS Series has been specifically designed to withstand the ...

Programmable DC power supplies to suit many applications including healthcare, harsh industrial, avionics/defense, test and measurement and semi-fab.

The Vertiv Liebert PSI5 Lithium-Ion uninterruptible power supply ...

Find the perfect programmable power supply for automated testing and precision control. Get accurate, repeatable power for R& D, production, and validation. Explore Tektronix solutions today!

The Vertiv Liebert PSI5 Lithium-Ion uninterruptible power supply (UPS) is designed to safeguard critical equipment in edge and distributed IT applications. The 1500VA UPS offers more ...

Category: Tower Uninterruptible Power Supplies. The CP-C.1 24/10.0 is a power supply from the CP-C.1 range. The primary switch mode power supply offers a wide range input of 85-264 V AC and 90 ...

Combines Power Management, Voltage Regulation, and Surge Protection with AVM and Battery Backup to provide the complete solution. MB1500 prevents critical equipment from losing setup configuration, ...

These models provide cost-effective, feature-rich power protection for networking, servers, and telecom equipment. They correct minor power fluctuations without switching to battery, thereby extending ...
