There is a patchwork of federal, state, and local policies and regulations pertaining to renewable energy systems that impact your project development. It is important to understand the ...

The extra layer of scrutiny for wind and solar contrasts with actions by the Trump administration to make it easier and cheaper for companies to produce oil, coal, gas and nuclear power.

The announcement is the latest in a string of government measures aimed at restricting wind and solar energy.

Across America's power grid, there's a growing gap between what we need and what we'll allow. As the planet warms and climate disasters grow more costly, the U.S. has set a target to reach ...

Some hope that voter frustration over electricity prices might persuade the Trump administration to ease restrictions on wind and solar power. Still, "at a certain point the uncertainty becomes so corrosive to ...

President Donald Trump said the U.S. will not approve wind or solar power projects. Trump has tightened federal permitting for renewables with Interior Secretary Doug Burgum now ...

This statute provides the framework for the development of solar energy and wind energy projects on federal lands managed by the Bureau of Land Management (BLM).

Local governments across the U.S. are blocking new clean energy plants. See the best locations for wind and solar power, and where it's being stopped.
