How big is Saudi Arabia's data center market?

Saudi Arabia's data center market is expanding rapidly and is projected to reach 854.81 MW by 2029. This growth is driven by multi-billion-dollar investments in AI-ready infrastructure, cloud computing, and digital transformation initiatives.

Will Saudi Data Center reach 100% of public and enterprise customers?

The data center is expected to reach 100% of public and enterprise customers in the region. The data center delivers ultra-low latency, reaching 90% of the Saudi population within 25 milliseconds.

Which companies are investing in AI-driven data centers in Saudi Arabia?

Data center companies in Saudi, including global giants Amazon Web Services (AWS), Microsoft, and DataVolt, alongside local players like ICS Arabia, are investing heavily in AI-driven data centers. Telecom leaders STC and Tawal are continuing to expand their digital infrastructure.

Saudi Arabia's rack market is transitioning from commodity cabinets to density-optimized, feature-rich enclosures that underpin cloud, AI, and sovereign workloads.

Saudi Arabia is rapidly expanding its digital infrastructure, driven by government initiatives, cloud adoption, and increasing data needs. As organizations look to upgrade or build new ...

Data centers in Saudi Arabia are shifting toward high-density rack configurations to maximize space utilization. These racks support greater computing power within limited footprints.

These micro-facilities need compact quarter and wall-mount racks that fit telecom closets and rooftop shelters. Operators now specify integrated battery backups and dust-proof door seals to ...

The integration of metaverse and augmented/virtual reality (AR/VR) technologies is increasingly influencing the demand for advanced data center infrastructure in Saudi Arabia.

The digital economy of Saudi Arabia is rapidly growing, and its demand for robust and scalable data center infrastructure is growing, thus propelling the growth of the data center rack market.

The 42U rack segment dominates the Saudi Arabia data center rack market, owing to its widespread adoption as the industry standard for both enterprise and medium-scale data center environments.

Explore the list of the top upcoming and ongoing data center projects in Saudi Arabia that will play a vital role in the digital transformation of the kingdom.
