The modular high voltage battery pack design allows you to start with a single 60kWh unit and easily expand by adding more racks in parallel to reach MWh-level capacity as your energy needs grow.

Sunwoda's OASIS 60 is a modular, high-performance battery energy storage system designed for commercial and industrial scale applications.

This energy storage cabinet is a PV energy storage solution that combines high-voltage energy storage battery packs, a high-voltage control box, an energy storage PV inverter, BMS, cooling systems (an ...

The 60KWH capacity of the battery pack allows for extended energy storage, providing a reliable power supply even during periods of low solar energy generation or during peak electricity demand.

Designed for commercial, industrial, and microgrid applications, it integrates a 30kW PCS with a 60kWh LiFePO4 battery bank to provide safe, efficient, and reliable power storage.

The 60KWH capacity of the battery pack allows for extended energy storage, ...

BlockArk Series High Voltage Cabinet Energy Storage System Easy to install and deploy with large space utilization With self-use, peak shifting, forced charging & discharging and other working modes ...

60kWh/200kWh outdoor integrated cabinet for industrial and commercial storage. Suitable for various industrial and commercial application scenarios such as industrial parks and commercial complexes, ...
