All-in-One Outdoor Energy Storage Cabinet integrates a 125kW bi-directional PCS inverter and 215kWh LiFePO4 battery into a rugged, space-saving solution for commercial/industrial applications.

Product Features: Standardized structure design, menu-type function configuration, photovoltaic charging module, a parallel off-grid switching module, power frequency transformer, and other ...

All-in-one 50kW/100kWh ESS cabinet for solar storage, backup, and peak shaving. Outdoor-rated, air-cooled, and easy to install with full EMS control.

High-capacity modular design that can be scaled from 215kWh to multi-MWh configurations. IP54-rated outdoor cabinet that withstands extreme temperatures, dust, and moisture. Real-time load ...

Cooperate with solar panels to form an energy-saving and green photovoltaic storage system, making it easier to build an independent energy storage system for residential and commercial use.

The IP54 waterproof shell makes it perfect to adapt to a variety of indoor or outdoor industrial and commercial application scenarios, such as photovoltaic charging stations, industrial parks, farms, etc.

Designed for harsh environments and seamless integration, this IP54-rated solution features a 105KW bi-directional PCS, optional air- or liquid-cooled thermal management, and parallel operation ...

The outdoor photovoltaic energy cabinet can provide reliable housing for network servers, edge computers, professional equipment, monitoring systems, photovoltaic, and battery systems.
