Leading EPC Contractor - combining the experience of over 1500 talented professionals who over the last 16 years designed, built and integrated PV plants with more than 12 GW installed ...

SolarHouse.bg offers design and construction of photovoltaic systems for home and business. We deliver efficient sustainable energy solutions.

The photovoltaic power plant, combined with an energy storage system on the roof of this small enterprise, is a great example of how such systems can minimize a business"s reliance on the grid.

In conclusion, despite occasional adverse weather conditions that may affect solar power generation efficiency in Sofia, its geographical position within the Northern Temperate Zone makes it ...

For this purpose, a tender has been launched seeking a contractor to supply a total of 220 photovoltaic systems. The budget is BGN 4.3 million excluding VAT, or about BGN 20,000 for one 4 ...

Sofia solar project V is an operating solar farm in Sofia, Bulgaria.

It is planned in Sofia, Bulgaria. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently at the permitting stage.

Bulgaria installed over 1 GW of solar for the third consecutive year in 2025 and is forecast to add over 2 GW this year thanks to a large pipeline of utility-scale projects.
