How do I get a solar installation?

Fill out the online form, and a trusted independent installer will call you to schedule a consultation. The solar specialist will review suggestions for your home based on square footage, power needs and appliance wattage to ensure a whole house solution. When your assessment is complete, we'll follow up with a quote.

How do I get a solar system installed at Lowes?

Confirm or enter ZIP code. From start to finish, Lowe's is with you every step of the way. Fill out the online form, and a trusted independent installer will call you to schedule a consultation. The solar specialist will review suggestions for your home based on square footage, power needs and appliance wattage to ensure a whole house solution.

Where should a solar power system be installed?

Regardless of the type of solar panel used, the most ideal setup for a solar power system is installing solar panels on a roof -- in a region with long peak sunlight hours -- with the panels facing south (for homes in the Northern Hemisphere). Investing in a solar power system is easier today than ever before.

Does Home Depot install solar?

During your free in-home consultation, The Home Depot's local solar power installer will clearly explain the installation process and how easy it is for you to go solar. By powering your home with clean, renewable solar energy, you're creating a healthier environment and conserving natural resources.
