Bhutan Solar Initiative Project (BSIP) aims towards achieving a sustainable energy supply for Bhutan through alternative renewable energy sources of solar grid integration.

We bring innovative solar solutions to power homes, businesses, and communities across Bhutan. From consultation to installation and maintenance, our expert team works towards providing reliable and ...

Bhutan's Druk Green Power Corporation and India's Carbon Resources Private Limited have agreed to collaborate on new solar and hydropower projects in Bhutan with capacities between ...

This project will be Bhutan's first and largest grid-connected utility-scale solar power plant, marking a significant leap in the country's renewable energy ambitions. Beyond Jamjee, several other large ...

Two pilot projects, each with 180 MW capacity, have already demonstrated solar's potential, particularly during winter when hydropower output drops. A core feature of Bhutan's strategy is linking solar ...

India Power Corporation Limited (IPCL) has announced a partnership to develop a 70 MW solar power project in Bhutan's Paro district, aiming to increase solar capacity in the region as ...

DGPC and CRPL sign MoU to jointly develop hydropower and solar projects, strengthening Bhutan's clean energy growth plans.

By pairing solar power with its iconic hydropower resources, Bhutan is crafting an energy system that is cleaner, more reliable, and far better equipped to withstand the pressures of a ...
