As solar grows in popularity, more scammers are targeting consumers. Here are three common solar scams to look out for, how to avoid them and how to report solar scams.

Genuine incentive programs and reputable solar energy contractors do exist. Before you accept an unsolicited offer, do some research on solar companies in your area.

Scams are unfortunately common in the solar industry. Learn more about some of the most likely scams you may face when trying to go solar.

No information about the cost to remove or transfer solar panels, which could lead you to believe you have future options that might not be available or affordable

While you are browsing solar power companies, one of them may offer to install a solar panel or solar roof in your home for a small cost or even for free. It's an intentionally misleading claim.

Getting constant calls or emails about solar panels? It may be a scam. Learn red flags, legal protections, & how to stop solar robocalls with Bennett Legal.

These scams start with an unexpected phone call, message on social, or even an in-person visit. The so-called official offers you an "energy audit" to reduce your utility costs. Or they might try to sign you ...

If your solar installation is not properly permitted, you may face fines, penalties, or even forced system removal. These legal battles can be time-consuming, costly, and highly stressful, making your solar ...
