What is a project funded by Friends of green Suriname & Conservation International-Suriname?

t (2015-2016)A one-year project funded by Friends of Green Suriname and Conservation International-Suriname. This project was carried out at the coastal area Weg naar Zee (one of the most vulnerable coastal areas in Suriname), by AdeKUS, the department of Infra

What is the conomic zone in Suriname?

conomic Zone (EEZ) extends the part of the Atlantic Ocean starting from Suriname's coast to 370 km offshore. In total, the EEZ covers an area of 140,000 km<sup>2</sup> which is sub-divided into the Continental Sea, located between the coast and the Continental Slope (65,000 2), an the Dee

Does Suriname have a quality control system?

egories. Suriname lacks a quality assurance/quality control (QA/QC) system as an integral part of the process. However, the inventory team, consisting of sectoral experts, performed routine checks on the da

What are the haracteristics of land use planning in Suriname?

haracteristics, each with their own possibilities and limitations to land use planning (Dodman, et al.; 2022). Land use planning in Suriname is characterized by the issuance of overlapping mining and forestry concessions; double issua

The main objective is to support the Government of Suriname in establishing a proper regulatory, institutional, and planning framework to achieve universal electricity access in Suriname in 2030.

A communication base station, wind-solar complementary technology, applied in the field of new energy communication, can solve the problems of inability to utilize wind energy to a greater extent, ...

Considering the trade-off between displacing expensive fossil fuels and limiting wind power curtailment on Suriname's island-like grid, our results suggest that integrating wind power in ...

Mobile communication green base station is installed on the 5th floor A mobile cellular network consists of a large number of interconnected coverage zones called cells that are deployed throughout the ...

Abstract This document stipulates the terms and definitions of green and low-carbon services for communication base stations, the scope of classification for green and low ...
