The solar farm has been built using low-carbon photovoltaic panels installed around the runway of Hultsfred airport. The presence of the French Ambassador Thierry Carlier at the ...

Sweden's largest solar power plant to date has begun commercial operations. The 100 MW Hultsfred Solar Farm, developed by Swedish independent power producer (IPP) Alight and ...

Nordic Solar has commenced construction on the Hultsfred solar park, marking the company's largest solar project in Sweden to date. With a capacity of 92 MWp, this significant ...

Nordic Solar AS is a developer, builder, and operator of industrial solar parks with a focus on solar park design and construction. It also specialises in the production of solar panels.

Solkompaniet pioneers large-scale solar projects in Sweden. Our founders built the country's first solar PV park in 2009 and today we are a strong partner in all solar project phases.

Scandinavian Solar Parks is an independent downstream solar energy producer that develops, builds, owns and operates utility-scale solar power generation parks.

Located at Hultsfred Airport in Småland, the solar farm has 174 000 low-carbon photovoltaic panels installed around the runway. With an installed capacity of 100 MWp, it will ...

The project is the largest in Sweden to date to receive an environmental permit that has gained legal force, marking an important milestone for large-scale solar energy in the country.
