What are the biggest 5G base station contracts awarded this year?

The China Mobile tender represents the biggest 5G base station contracts awarded this year.

How many 5G base stations will China Mobile have this year?

China Mobile plans to operate more than 1.6 million 5G base stations this year, with 360,000 new additions. It aims to increase its number of cloud servers by more than 240,000 units and add 40,000 external data center racks. Editor: Emmi Laine

Which companies have been awarded a 5G contract?

Smaller contracts were also awarded to Datang Mobile Communications Equipment, Ericsson, and Nokia Shanghai Bell. China Mobile plans to operate more than 1.6 million 5G base stations this year, increase its number of cloud servers by more than 240,000 units, and add 40,000 external data center racks.

Will Huawei's 5G deal bolster China's core revenue base?

Huawei Technologies will supply over half of the 5G base stations for China's top telecoms company China Mobile between 2023 and 2024, a deal which analysts say will help shore up its core revenue base after losing its lucrative smartphone business amid tough US sanctions.

Discover the tendering process step by step. Learn how the tender process works, the key stages of tender processes, and how to approach each tender process with confidence.

Tendering is the formal process by which companies invite bids for projects or contracts, allowing suppliers or contractors to submit proposals outlining their qualifications, pricing, and timelines.
