What's going on with energy storage in Texas?

Energy storage developer On.Energy announced it closed \$77.6 million in construction credit facilities provided by Pathward N.A. and BridgePeak Energy Capital to build a 160 Megawatt-hour Palo de Agua battery storage portfolio across the state of Texas.

How does Texas energy development impact battery storage?

Explore how Texas energy development is contributing to this ongoing shift. Texas is also rapidly expanding its battery storage infrastructure. The state's grid operator, ERCOT, reported nearly 10,000 megawatts of battery capacity by the end of 2024--a figure that has nearly doubled each year since 2021.

Why is Texas a good place to invest in energy?

Sectors like advanced manufacturing in Texas are increasingly supported by access to affordable, diverse, and expanding energy resources. As the energy landscape evolves, Texas is well-positioned to contribute to the country's clean energy goals while continuing to meet the demands of a growing economy.

How has Texas energy development changed over the years?

Since 2019, wind and solar have grown to account for 30% of the state's electricity generation, up from 18% just a few years earlier. On high-demand days, solar alone has met nearly half of peak electricity needs across the state. Explore how Texas energy development is contributing to this ongoing shift.

Corporate funding for Energy Storage Companies, including venture capital (VC) funding, debt, and public market financing, reached \$16.2 billion in 119 deals in 2025.

Texas Energy Capital is a premier student-managed energy investment fund at UT Austin, focusing on sustainable energy finance and providing hands-on investment experience.

NEW YORK-- (BUSINESS WIRE)-- Captona, a diversified energy transition investment firm, today announced the completion of a preferred equity transaction in three standalone, utility ...

The capital is expected to serve as the company's principal funding source for utility-scale energy storage and hybrid renewable projects expected to reach commercial operation through ...

Energy storage developer On.Energy announced it closed \$77.6 million in construction credit facilities provided by Pathward N.A. and BridgePeak Energy Capital to build a 160 Megawatt ...

Houston-based clean energy company Intersect Power has wrapped up \$837 million in financing for the construction and operation of three standalone battery energy storage systems in ...

Texas has significantly increased the deployment of intermittent renewable energy whilst baseload thermal generation is being retired across the state. The assets help to balance ERCOT's grid by ...

Houston-based GoodPeak has nailed down \$22 million in construction debt financing to help build its first two 10-megawatt battery energy storage projects, both of which are expected to ...
