What is the Timor-Leste solar power project?

The Project involves the construction and 25-year operation of a new power plant in Manatuto, Timor-Leste, comprising a 72 MW solar power plant co-located with a 36 MW/36 MWh battery energy storage system. This will be the country's first full-scale renewable energy IPP project.

How has Timor-Leste benefited from a power purchase agreement (PPA)?

This landmark project included drafting and negotiating a power purchase agreement (PPA) and an implementation agreement with the Ministry of Finance, marking a significant step in Timor-Leste's transition to renewable energy and the modernisation of its electricity infrastructure. Jos#233; de Ponte, Partner in DLA Piper's Finance practice, commented:

Did DLA Piper advise Eletricidade de Timor-Leste on power purchase agreement?

DLA Piper advised Eletricidade de Timor-Leste on power purchase agreement for first solar and battery storage project

Why should Timor-Leste invest in solar & storage infrastructure?

Jos#233; added: "The investment in Timor-Leste's solar and storage infrastructure is transformative. It will help reduce dependence on fossil fuels while improving grid stability and energy access across the country".

Jos#233; de Ponte was supported by special counsel Marnie Calli, senior associate Lisa Huynh and solicitor Jeraldine Mow.
