Why is octopus recommending a new energy tariff?

According to Octopus, due to volatile wholesale energy prices, it is currently only recommending the tariff to customers with solar panels, home batteries and electric vehicles (EVs) - as these households may be able to more easily shift use outside of peak periods, or they need to use a lot of electricity overnight to charge their EVs.

Is Agile Octopus a good energy tariff?

With wholesale energy costs falling massively over recent months, Agile Octopus could now be a good option for some households (it's allowed to offer different rates as it's not a standard tariff). Is Agile Octopus cheaper than the Energy Price Cap?

What is Agile Octopus?

Agile Octopus is a smart energy tariff provided by Octopus Energy. Much like its popular tracker tariff, this smart tariff directly tracks the price of wholesale energy, but with one crucial difference; rather than updating the energy price once a day, it updates every half an hour.

How does Agile Octopus affect wholesale rates?

With Agile Octopus, falling wholesale prices are reflected in the rates you pay almost immediately, and with wholesale rates dropping back massively from all-time highs over the last month or so, now is the perfect time to examine the tariff.

Octopus Agile is a dynamic electricity tariff from Octopus Energy that tracks wholesale electricity prices on a half-hourly basis. This means the amount you pay for electricity changes every 30 minutes ...

Agile Octopus is a smart energy tariff provided by Octopus Energy. Much like its popular tracker tariff, this smart tariff directly tracks the price of wholesale energy, but with one crucial ...

We launched Agile Octopus to encourage households to shift their consumption from the daily peak energy demand period of 4.00pm to 7.00pm when we're paying very high wholesale prices.

What is Agile Octopus, and how do I join? Agile Octopus is one of our beta smart tariffs, offering customers electricity prices that change every half an hour, based on the wholesale price of energy. ...

Track your electricity costs with rates that change every 30 minutes, tied to UK energy wholesale prices. Agile puts you in full control.
