Solar panels are cheaper than electricity and other power sources, but leasing panels does not afford the same long-term savings as buying the best solar panels outright.

Solar leases let you go solar with \$0 down and no maintenance ...

Solar leases let you go solar with \$0 down and no maintenance responsibilities, making them accessible for homeowners who want to preserve capital. Under a solar lease, the solar ...

Leasing solar panels is like leasing a car: you don't own the solar panels, but you do get to use the solar energy they produce for a fixed monthly payment to the solar company. Solar lease payments are ...

A solar lease works similarly to leasing a car--you pay a fixed monthly fee to use solar equipment installed on your property without owning it. The solar company retains ownership while ...

Solar leasing offers zero down options for homeowners who want to go solar without the upfront investment of purchasing a solar panel system. Leasing companies handle all maintenance, ...

Solar leasing allows homeowners to use energy from rented solar panels. Instead of making a down payment, homeowners typically agree to make monthly lease payments for several ...

In a solar lease, your customers will pay a flat monthly rate for their solar energy system. In return, they can use all the solar electricity produced to power their property and reduce utility bills.
