At the New Product Launch, Liu Mancang, Solution Manager at Zhiguang Energy Storage, introduced the grid-forming cascaded high-voltage large-capacity energy storage system.

Guangzhou Zhiguang Electric has secured a new contract valued at 152 million yuan for the supply of high-voltage cascaded grid-type energy storage systems, according to a Shenzhen ...

If the contract is smoothly performed, it is expected to have a positive impact on Zhiguang Electric's financial status and operating results for the current year and future years.

As China accelerates its dual-carbon goals and integrates a growing share of renewables into the grid, grid-forming energy storage has emerged as a critical solution to bridge the gap between intermittent ...

On November 25, Zhiguang Electric issued an announcement stating that its holding subsidiary, Zhiguang Energy Storage, has recently signed a Procurement Contract for High-voltage ...

Our products deliver power capacities from 5kW to 10kW, available in both single and three-phase configurations, and energy storage ranging from 5 kWh to 30 kWh.

July 25, Zhiguang officially launched its third-generation cascaded high-voltage large-capacity energy storage system -- ZGGener-Plus 3.0 -- at the Energy Storage Engineering Conference in Chengdu.

Zhiguang Energy Storage is investing heavily in the development of 35kV cascaded high-voltage direct-connected energy storage systems, raising the average system conversion efficiency at the 220kV ...
